

WASHINGTON AND NEW YORK FINANCIAL NEWS

FINANCIAL OUTLOOK  
IS REPORTED BRIGHT

Local Bank Review of Conditions  
Speaks Optimistically  
of Future and Coming Year.

The financial outlook appears to be highly encouraging, according to the monthly digest of trade conditions issued today by the Commercial National Bank.

Washington is visited each year by representative men from every section of the United States," says the review, "and those who have been in the city recently have, for the most part, expressed themselves hopefully about the future.

Money is reported to be in fair demand, but year-end payments are expected to be readjusted without the violent advance in rates often seen at this season. Little speculation is seen and most merchants are buying carefully and only for a ready market.

Mexico, currency, and threatened changes in the Sherman law are restraining factors of uncertainty.

It is believed that the railroads will be able to make out a case before the Interstate Commerce Commission and that a reasonable advance in rates will be permitted.

The strictly local financial situation is not commented upon. The influence of the readjustment being worked out between the two big trust companies recently brought together and of the investigation of the Public Utilities Commission into the affairs of some of the public utility corporations is not regarded as sufficiently disturbing to alter the opinion of conservative optimism for the immediate future or for the coming year.

A special meeting of the stockholders of the Union Savings Bank has been called for Thursday morning at 11 o'clock. This will probably disclose how the control of the institution stands. The notice was sent out by the Cooper interests, and states that the meeting is called for the transaction of such business as may come before the stockholders.

An extra dividend of 25 per cent and the regular quarterly dividend of 25 per cent have been declared by the Metropolitan National Bank. Both dividends will be paid on December 15 to stockholders of record at the close of business December 5. The transfer books will not be closed.

There was evidence of good investment buying in today's session of the Washington Stock Exchange. A total of \$12,000 of Capital Traction 5's were bought at 107 1/2, \$1,000 of Metropolitan National Bank 5's at 105 1/2, \$500 of Capital Traction 5's at 105 1/2, and \$500 of Washington Gas 5's at 105 1/2. A total of \$25,000 of Capital Traction 5's were sold at 105 1/2, and the remaining fifteen a point less. The other stock transactions were in the largest being ten shares of Capital Traction at 112. The quotation figures for the last stock remained steady. The 100 per cent Railway common and preferred were each 4 points apart.
